

Attn Shipmates....

The United States Navy has authorized recognition of the enlisted men that served during the "Vietnam Era" with retroactive qualification for Enlisted Aviation Warfare Specialist (EAWS). For our association, this would include men of HA(L)-3, FASU Binh Thuy, and HC-1 Game Warden Detachments which immediately preceded HA(L)-3, as honorary "Enlisted Aviation Warfare Specialists".

If you participated in support of our depot maintenance department or performed aircraft maintenance while assigned to a detachment, you may be eligible for this recognition. If interested, submit the following form so we can complete this process for your retroactive certificate.
