

## MUSEUM REQUESTED MATERIAL IN SUPPORT OF THE HA(L) - 3 DISPLAY

### Items

- Any equipment/personal items to include:
  - Helmets ( Army ones we flew with)
  - Flight suits ( Army green suits)
  - Chicken plates
  - Other unique memorabilia

The museum intends to put mannequins in the bird and they want them to look as authentic as possible

- Audio recordings of radio communications during a mission (they want to play this around the bird)
- Video recordings during a mission
- Photographs
  - Bases of operations, YRBMs, LSTs
  - Crews, Helicopters
  - Of actions on a mission

There are a million pictures so try to be specific when stating what you would like to donate. They will also need to be labeled/or submit a write up, to include the year, so they will know exactly what you have provided.

If you would like to donate, please send an email to me at [edwarddyer@att.net](mailto:edwarddyer@att.net). Please tell me exactly what your item/s is/are. I am going to forward listed items to the museum to ensure the museum wants/still needs the items. I believe the museum already has a lot of items and our Pensacola team is waiting to see if we can review their existing inventory. If you have already donated items, please let me know what it was and when you provided it to the museum.

Thanks for your Support
